STATEMENT OF REASONS FOR ALLOWANCE

Response to Amendment

1. This Office Action is responsive to Applicant's amendment of July 9, 2009.

Response to Arguments

2. Applicant's arguments, filed July 9, 2009, with respect to rejection of claims 1-5 and 9-19 have been fully considered and are persuasive. The rejection of claims 1-5 and 9-19 has been withdrawn. Note: in the remarks filed June 2, 2009 the Applicant requested that the Office Action mailed Dec. 31, 2008 be indicated on the record as non-final. Indication of the finality of the action was inadvertent; the action should be considered non-final. Any inconvenience to Applicant is regretted by the Examiner.

Election/Restrictions

3. Claims 1-5 and 9-19 are allowable. The restriction requirement among species, as set forth in the Office action mailed on Sept. 9, 2008, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** See the statement of reasons for allowance below.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

4. Claims 1-5 and 9-19 are allowed. The following is an examiner's statement of reasons for allowance: the prior art does not disclose or make obvious, an optical amplifier with a control unit that determines whether a change of output light is caused by a loss of transmission path or a change in wavelength number by comparing a first change of a filtered light power with a second change of the total light power, in conjunction with other elements of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Eric Bolda whose telephone number is 571-272-8104. The examiner can normally be reached on M-F from 8:30am to 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the Examiner's supervisor, Jack Keith, can be reached on 571-272-6878. Please note the fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
